EXPERIENCE

13 Years Electrical Industry
13 Year with Capitol Electric

EDUCATION

Bachelors of Science, Marketing
Santa Clara University, 2011

ABOUT

Nick joined Capitol Electric in 2013 working as a project accountant before moving to estimating and project management. Now he primarily focuses on bidding work while assisting in project management.

In his free time, you'll find Nick trying to squeeze as many rounds of golf into the weekend as possible.

[1] SHVO Sky Bar, San Francisco

- 2,600 SF high end building amenity bar at 600 Montgomery Street, San Francisco's Pyramid Building. Located on the building's occupiable top floor, the project consisted of a very complex lighting design and a full floor power and fire alarm upgrade. The project also boasted a custom coffer ceiling with LED lighting integration.

[2] Cafe Sebastian, San Francisco

- 6,800 SF restaurant in San Francisco featuring a full restaurant, bakery, bar, and back lounge with DJ booth. A custom "Oculus" light fixture with complete RGB customization and integration with the DJ booth's music.

[3] QuinStreet, Foster City

- 20,000 SF commercial tenant improvement including a complete renovation of the 12th floor in Foster City's Metro Tower. Custom lighting with a feature "Q" light for the company's name and complete upgrade of power distribution and lighting controls.
