ABOUT

Philip brings 20 years industry experience to the Capitol Electric team having completed a 5 year apprenticeship program and spending 17 years in the field progressing through roles from Apprentice up to General Foreman. He now works as a project manager overseeing \$20+ million per year in projects using his field expertise to ensure successful project delivery time and time again.

Outside of work, Philip spends time with his wife and two children and loves being outdoors and watching the little ones compete in sports.
